

Agricultural Business Plan Guidelines Department Of

Agricultural Education remains fundamental to civilization. It is the most consistent productive income of Australia, which is one of the world's very few net agricultural exporters. Victoria, with only about three percent of the Australia's area, has been its major source of agricultural output. These three factors – underpinning civilization, creating wealth, and intensity in south-eastern Australia – make Victorian agriculture and its education of national importance and international significance. The Faculty of Agriculture at the University of Melbourne, at times complemented by La Trobe University and such colleges as Burnley, Dookie, Gilbert Chandler, Glenormiston, Longerenong, Marcus Oldham and McMillan, has underpinned sustained rises in productivity and profitability. But coordination and consistency have not always been its hallmarks. This history reveals that Agriculture at Melbourne began amidst controversy, grew to fame under a great Dean, at times rested on its laurels and others was dragged into organisational experiments. Its 22 Deans over its 110 years typify the calling evident in its staff. Frequently a leader, the Faculty has recently strengthened its animal sciences by joining with the veterinary sciences – but that is for a future history.

A practical, how-to guide for farmers who want to achieve and maintain financial sustainability in their businesses You decided to become a farmer because you love being outside, working the land and making a difference in the way we eat and farm. And when you decided to become a farmer, you also became an entrepreneur and business person. In order to be ecologically and financially sustainable, you must understand the basics of accounting and bookkeeping, and learn how to manage a growing business. Author Julia Shanks distills years of teaching and business consulting with farmers into this comprehensive, accessible guide. She covers all aspects of launching, running and growing a successful farm business through effective bookkeeping and business management, providing tools to make managerial decisions, apply for a loan or other financing, and offering general business and strategy advice for growing a business. Whether you've been farming for many years or just getting started, The Farmer's Office gives you the tools needed to think like an entrepreneur and thoughtfully manage your business for success. Julia Shanks works with food and agricultural entrepreneurs to achieve financial and operational sustainability. She has worked with a range of beginning and established farmers, providing technical assistance and business coaching that has allowed them to launch, stabilize and grow their ventures. A frequent lecturer on sustainable food systems and accounting, she sits on the advisory board of Future Chefs and is the regional leader of Slow Money Boston. Together with Brett Grohsgal, she is also co-author of The Farmers Market Cookbook .

Is Your Inner Farmer Calling? It's Time to Listen! Christopher McNinch has heard the whisper that has spoken to so many of our hearts: Come back, come home to a simpler time, to the rural ways that shaped the values of our forebears. A longtime financial advisor, McNinch dreamed of returning to the land and the farm life his grandparents knew. He now runs a small farm of 14 acres in Upstate New York, where he and his wife, Lisa, and their two teenage children raise alpacas and chickens. "You are not alone," he writes to those dreaming of embarking on such a journey. "The multitude of Farmville fans who indulge their virtual farm fantasy on Facebook is a reflection of our

yearning to return to the land, start a real farm, build a backyard coop, grow the perfect tomato, tend a beehive, milk a goat. People want a share of the life that their parents, perhaps, or their grandparents knew, for themselves. Comes a time, for some, that the virtual must become reality." In *Whispers from the Farm*, McNinch weaves collected stories of those who have the same passion or who delight in their rural memories into a guide filled with practical advice for those who hope to embark on the adventure of running a small farm. Should you buy or lease your land? Which crops or livestock are appropriate for you? Along with telling you what you need to know and showing where to find it, he imparts the lessons learned along his own journey in starting a small farm. Christopher McNinch has created a book that he hopes will help a new generation of small farmers grow their own crop of memories - ones they can pass down for their children to cherish. Is starting a small farm whispering in your ear?
