Chapters: An Israeli Love Story, Asterix and the Black Gold, A Flag is Born, Ben Hur Live, Gabriel Allon, Golda's Balcony, Land of Black Gold, Mivtza Savta, Monty Python's Life of Brian, My Glorious Brothers, Nathan the Wise, Seven Jewish Children, The Greatest Story Ever D'ohed, To Pay the Price, Wall (play), What Strong Fences Make, You Don't Mess with the Zohan, Zlateh the Goat. Excerpt: Monty Python's Life of Brian, also known as Life of Brian, is a 1979 British comedy film written, directed and largely performed by the Monty Python comedy team. It tells the story of Brian Cohen (played by Graham Chapman), a young Jewish man who is born on the same day as, and next door to, Jesus Christ, and is subsequently mistaken for the Messiah. The film contains themes of religious satire that were controversial at the time of its release, drawing accusations of blasphemy and protests from some religious groups. Thirty-nine local authorities in the UK either imposed an outright ban, or imposed an X (18 years) certificate (effectively preventing the film from being shown, as the distributors said the film could not be shown unless it was unedited and carried the original AA (14) certificate). Some countries, including Ireland and Norway, banned its showing, with a few of these bans lasting decades. The film makers used such notoriety to benefit their marketing campaign, with posters stating "So funny it was banned in Norway!." The film was a box-office success, grossing fourth-highest of any film in the UK in 1979 and highest of any British film in the United States that year. It has remained popular since then, receiving positive reviews (the film has 96% "Fresh" on Rotten Tomatoes

with this consensus: One of the more cutting edge films of the 1970s, this religious farce from the classic comedy troupe is as poignant as it is funny...

A wish tossed out carelessly on the worst night in her life proves impossible to escape when a sista, Lindsey-Smith, a struggling songwriter, must confront a crushing childhood secret in order to end a sadistic serial killer's reign. She's lead into this fight for her life when seduced by an intuitive exotic Chicago homicide detective, Lieutenant Lake, who has hunted the monster for a year. He targets girls linked by a freakish tapestry that must be unraveled by those who wish to stop him. Only one person on earth can make that hell-of-a wish come true. Lindsey-Smith. She's got it like that because Satan made it so during his annual pursuit of his favorite drink, courageous souls with a dash of vanity on the rocks. It is Halloween, that one day of the year when earth spaces and hell's faces get horizontal in a parellel universe. Those caught on the rim are there by Satan's invitation to make a wish come true or die. While reading enjoy "Speak of the Devil" and "Jump On It", the first songs to accompany a novel and discover the name of the first female Olympic gold metalist.

Offers public and school librarians effective strategies for building and promoting graphic novel collections that meet the needs of students.

Whereas in English-speaking countries comics are for children or adults "who should know better," in France and Belgium the form is recognized as the "ninth art" and follows in the path of poetry, architecture, painting, and cinema. The bande dessinée [comic strip] has its own national institutions, regularly obtains front-page coverage, and has received the accolades of statesmen from De Gaulle onwards. On the way to providing a comprehensive introduction to the most francophone of cultural phenomena, this book will consider national specificity as relevant to an anglophone reader, whilst exploring related issues such as text/image expression, historical precedents, and sociological implication. To do so it will present and analyse priceless manuscripts, a Franco-American rodent, Nazi propaganda, a museum-piece urinal, intellectual gay porn and a prehistoric warrior who's really Zinedine Zidane.

This volume brings together experts from a wide range of disciplines to define and describe tabooed words and language and to investigate the reasons and beliefs behind them. In general, taboo is defined as a proscription of behaviour for a specific community, time, and context. In terms of language, taboo applies to instances of language behaviour: the use of certain words in certain contexts. The existence of linguistic taboos and their management lead to the censoring of behaviour and, as a consequence, to language change and development. Chapters in this volume explore the multiple types of tabooed language from a variety of perspectives, such as sociolinguistics, anthropology, philosophy, psychology, historical linguistics, and neurolinguistics, and with reference to fields such as law, publishing, politics, and advertising. Topics covered include impoliteness, swearing, censorship, taboo in deaf communities, translation of tabooed words, and the use of taboo in banter and comedy. An internationally recognized historian presents a revealing tour of the ancient world, shedding new light on Greek and Roman history. Profiles seventy-five authors, writing teams, and illustrators of graphic novels, and features an introduction to the genre, discussion of manga, brief accounts of graphic novel publishers, a glossary, and photographs.

Spiritus flat ubi vult academicus. It seems evident that the study of antiquity and the study of antiquity's persistence will continue to be distributed ubique terrarum. This pleasing circumstance was exemplified in January 2014, at the Adam Mickiewicz University in Poznań, an institution named after Poland's influential nineteenth-century epic and lyric poet. As part of an ongoing series of such academic meetings, the university hosted the Seventh International Conference on Fantasy and Wonder. Its topic was Antiquity in Popular Literature and Culture. Several of the papers given in Poznań appear in this volume in revised form. They demonstrate the continuing presence of the past, or, to put it slightly differently, the importance of the past in the present and, by extension, for the future.

The first of its kind, this annotated guide describes and evaluates more than 400 works in English. Rothschild's lively annotations discuss important features of each work-including the quality of the graphics, characterizations, dialogue, and the appropriate audience-and introduces mainstream readers to the variety and quality of graphic novels, helps them distinguish between classics and hackwork, and alerts experienced readers to material they may not have discovered. Designed for individuals who need information about graphic novels and for those interested in acquiring them, this book will especially appeal to librarians,

booksellers, bookstore owners, educators working with teen and reluctant readers, as well as to readers interested in this genre.

Wonder Woman, Amazon Princess; Asterix, indefatigable Gaul; Ozymandias, like Alexander looking for new worlds to conquer. Comics use classical sources, narrative patterns, and references to enrich their imaginative worlds and deepen the stories they present. *Son of Classics and Comics* explores that rich interaction. This volume presents thirteen original studies of representations of the ancient world in the medium of comics. Building on the foundation established by their groundbreaking *Classics and Comics* (OUP, 2011), Kovacs and Marshall have gathered a wide range of studies with a new, global perspective. Chapters are helpfully grouped to facilitate classroom use, with sections on receptions of Homer, on manga, on Asterix, and on the sense of a 'classic' in the modern world. All Greek and Latin are translated. Lavishly illustrated, the volume widens the range of available studies on the reception of the Greek and Roman worlds in comics significantly, and deepens our understanding of comics as a literary medium. *Son of Classics and Comics* will appeal to students and scholars of classical reception as well as comics fans. Phoenician merchant Ekonomikrisis has forgotten the druid Getafix's order for rock oil - an essential ingredient in the magic potion. So Asterix and Obelix go

prospecting for black gold in the Middle East. Can they also outwit the Roman secret agent Dubbelosix and his amazing folding chariot, equipped with all the latest spy gadgets?

European comic authors produced a steady stream of comic material throughout the twentieth century, but gained the world's notice in 1975 when the French magazine *Metal Hurlant* was founded. A new generation of artists and writers had begun. Soon publishers were producing translations of the new comics into other languages, including English, and comics creators everywhere were inspired to innovation. This is a reference work, arranged by artist or writer, to European comics from the last quarter of the twentieth century that have been translated from any European language into English. It contains a variety of material, from the innocent imperialism of Herge's *Tintin* to the sadistic murder for hire in Bernet's *Torpedo*. Albums by a single creator or artist-and-writer team of European origin are the focus; comics in periodicals and anthologies with multiple contributors are excluded. Each entry provides a plot abstract and various notes about the original comic. An author index provides brief biographical information. There is a comprehensive general index.

The fruit of a lively meeting of translators and academics, the papers in this important volume look at a broad and exciting range of translation problems.
