Often includes the proceedings of various member societies and the abstracts of papers submitted for presentation at the annual meeting of the Federation or at the meetings of its member societies. Over 220,000 entries representing some 56,000 Library of Congress subject headings. Covers all disciplines of science and technology, e.g., engineering, agriculture, and domestic arts. Also contains at least 5000 titles published before 1876. Has many applications in libraries, information centers, and other organizations concerned with scientific and technological literature. Subject index contains main listing of entries. Each entry gives cataloging as prepared by the Library of Congress. Author/title indexes.

Modern color photography and period sales literature recalls Mustang's most collectible model years. Examines Lee Iacocca's role, the phenomenal sales figures, model changes, and associations with race legends like Carroll Shelby.

The Citroen D-series Buyers Guide aims to guide collectors, restorers, and enthusiasts through the various production changes and problem areas between model years to make sure their restoration or prospective purchase is correct, original, and legitimate. The guide will be an essential reference tool to be used when buying, selling, repairing or restoring the various D-models manufactured between 1966 and 1975. One hundred color photos, useful appendices and expert advice mean this book could save you 1000's.

In How to Build Altered Wheelbase Cars, renowned writer Steve Magnante first walks readers through the colorful history of the altered wheelbase period and then shows them how to perform these radical modifications themselves. Magnante's fun and colorful style makes for entertaining reading, and the coverage of floorpan mods, chassis alterations, and both front and rear suspension upgrades are covered in great detail on three different chassis types. After reading this book, the basic technical tenets of altering vehicle wheelbase will be understood and the almost mythical legend surrounding such cars will be fully realized. What were once considered "race only" modifications can now be civilized for street use, and Magnante carefully reviews all of the relevant points for optimal appearance, performance, and safety.

Vols. for 1919- include an Annual statistical issue (title varies).

Since the early days of racing, Chrysler, Dodge, and Plymouth have dominated drag strips and race tracks. During 1955 alone, Chrysler 300s won 37 major stock car races and clinched both the NASCAR and AAA stock car championships. Although the impressive engine options of 1950s consistently out-performed the competition, they were a mere opening act for the extremes of performance that would be unleashed throughout the 1960s--the golden era of drag racing and factory super-performance cars. Maximum Performance: Super Stock Drag Racing 1962-1969 details Chrysler's amazing dominance in this era. Its drivers were among drag racing's first paid professional racers, and this book covers the complete story of Mopar drag racing accompanied by historical imagery as well as contemporary photos. This is the real story behind Super Stock and Factory Experimental drag racing as told the people who lived it!

Considers the effects of the automobile industry's planning and regulating activities on competition. Includes "Automobile Industry: A Case Study of Competition" by General Motors Corp. (p. 617-728).

Muscle cars all but disappeared by 1974, but by the 1990s, thanks to improved engine technology, they were back with a vengeance. This book traces the full history right up to today's new Mustang, Camaro, and Challenger.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

The world's most comprehensive, well documented, and well illustrated book on this subject. With extensive subject and geographic index. 20 photographs and illustrations - many color. Free of charge in digital PDF format.

"Celebrate America's premier performance car! From the original Shelby Mustang GT350 to today's 700-plus horsepower GT500, Carroll Shelby and Ford Motor Co. have defined high-performance with their Shelby Mustangs. Shelby built his Mustangs from 1965 until 1970, at a time when it seemed that the muscle car was a dying breed. Then an odd thing happened-people began to realize the classic nature of the car almost as soon as Shelby stopped building them and prices began to climb. By the end of the decade, the Shelby Mustang had become one of the first muscle cars to attain classic status, along with the price hike that went along with that recognition. Prices continued to rise into the next century; a 1967 Shelby Mustang GT500 fetched \$451,000 at auction in 2006, at which time production of new Shelby Mustangs began for the first time in 36 years. Since then prices have cooled a bit, but not nearly as much as they have for other muscle cars; Shelby Mustangs still occupy the top slot at most auctions and Shelby continues to build the popular modern versions of the Mustang today. [This book] tells the story of these amazing cars, from the initial collaboration with Ford to today's record-setting high-tech muscle cars."--Publisher description.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

During the 1960s, the automobile finally secured its position as an indispensable component of daily life in Britain. Car ownership more than doubled from approximately one car for every 10 people in 1960 to one car for every 4.8 people by 1970. Consumers no longer asked "Do we need a car?" but "What car shall we have?" This well-illustrated history analyzes how both domestic car manufacturers and
