STATISTICS FOR MANAGEMENT AND ECONOMICS, 9E, demonstrates how vital statistical methods are for today's managers and economists--and teaches students how to apply these tools to real-world business problems. Using an ICI approach--Identify, Compute, and Interpret--students quickly comprehend concepts while you are offered maximum flexibility. The text incorporates various functional areas of business, data-driven examples, and exercises, and cases demonstrate statistical applications used in finance, marketing, operations, human resources, and accounting. Unique teaching and learning resources such as CourseMate save you time while providing control and better student outcomes. The ninth edition also includes Excel 2010 and Minitab 15 content. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The complete solutions manual provides worked out solutions to all of the problems in the text.

This book emphasizes problem solving and teaches students how to systematically solve business problems. It provides a framework for applying statistical techniques by focusing on the relationship between the type of problem, the type of data involved and the appropriate technique. Its comprehensive coverage and integrated computer examples and instructions provides enough material for a two-semester course. Real data are used in the problems and case studies.
