Egypt, 1964. The great temple at Abu Simbel must be rescued from the rising waters of the Aswan Dam. Block by block it is to be dismantled and resurrected sixty metres higher. This most delicate and daunting of tasks is overseen by Avery, a young engineer who at the same time is carefully, and joyfully, constructing a shared life with his new wife, Jean. But not everything can be saved once the floodgates have opened. Villages will be deluged. Graves will be moved. Thousands will be exiled from their ancient homes and from the river that has been their lifeblood, and no feat of engineering can prevent this. As the temple is taken apart and rebuilt, Avery and Jean suffer a terrible loss of their own. Their separate journeys through the landscape of grief will take them from Egypt, to Canada, to lands that have been flooded and reconfigured and homes that have been lost, to a guerrilla painter of the past whose story of destruction, reconstruction and replication in war-devastated Poland is built out of equal parts hope and despair. Weaving historical moments with the quiet intimacy of human lives, *The Winter Vault* tells of the ways in which we salvage what we can from the violence of life. It is the story of a husband and a wife trying to find their way back to each other; of people and nations displaced and uprooted and of the myriad means by which we all seek out a place we can call home. It is a breathtaking and heartbreaking novel about the inescapability of memories, the devastation of loss, and the restorative power of love.

A stunning visual history of the American Civil War Visually arresting and comprehensive, *The American Civil War* comes fully reviewed and updated, covering the history, causes and consequences of the conflict, providing eyewitness accounts by soldiers and civilians, key profiles of military leaders and clear timelines that give an instant overview of the developments during the tumultuous war. Packed with galleries of weaponry and equipment, and information on the treatment of wounded soldiers and slavery, this is a rich, detailed account of one of the most controversial conflicts of our time. This updated edition comes with new, highly illustrated pages on memorial sites associated with the Civil War. An invaluable resource for schools and libraries, as well as a perfect companion for anyone interested in military and social history.

It is the 23rd century. Humankind has reached the stars, building a tentative empire across a score of worlds. Earth's central government rules weakly as several worlds continue their efforts toward independence. Shadow organizations hide in the midst of the political infighting. Their manifestations of power and influence are beholden only to the highest bidder. The most powerful/insidious/secret of these, The Lazarus Men, has existed for decades, always working outside of morality's constraints. Led by the enigmatic Mr. Shine, their agents are hand selected from the worst humanity has to offer and available for the right price. Gerald LaPlant lives an ordinary life on Old Earth. That life is thrown into turmoil on the night he stumbles upon the murder of what appears to be a street thief. Fleeing into the night, Gerald finds himself hunted by agents of Roland McMasters, an extremely powerful man dissatisfied with the current regime and with designs on ruling his own empire. In order to do so, McMasters needs the fabled Eye of Karakzaheim, a map leading to immeasurable wealth. Unknown to either man, Mr. Shine has deployed agents in search of the same artifact and will stop at nothing to obtain it. Running for his life, Gerald quickly becomes embroiled in a conspiracy reaching deep into levels of government that he never imagined existed. His every move is hounded by McMasters' agents and the Lazarus Men. His adventures take him away from the relative safety of Old Earth across the stars and into the heart of McMasters' fledgling empire. The future of the Earth Alliance at stake. If Gerald has any hope of surviving and helping saving the alliance he must rely on his wits and awakened instincts while foregoing the one thing that could get him killed more quickly than the rest: trust.

This is a poignant and graphic telling of the life of a young German Jewish woman taken and killed during the holocaust. Charlotte Salomon (Berlin, 16/04/17 - Auschwitz, 10/10/43) was an artist from a prosperous family whose mother committed suicide when she was just nine-years-old. One of several suicides within her family. She attended the School for Pure and Applied Arts until 1938 when the increasing antisemitic policies caused her to escape to the south of France to live with her grandparents. It was not the best of times. In 1941, now living alone she began painting what became over 1000 gouaches which she edited and added captions and overlays to create her life's work 'Leben? Oder Theater?' consisting of 769 of the paintings depicting a somewhat fantastical autobiography preserving the main elements of her life. She also made notes on appropriate music to accompany the art. In 1943 she handed the work over to the local doctor in a large suitcase with the wish that he "Keep this safe, it is my whole life." She had addressed it to wealthy American, Ottilie Moore in whose property she had stayed. By September that year she had married another German Jewish refugee, Alexander Nagler, and the two of them were arrested and she was transported to Auschwitz to the gas chambers when five months pregnant.

Against the backdrop of a totalitarian North Korea, one man unwillingly uncovers the truth behind series of murders, and wagers his life in the process. Sit on a quiet hillside at dawn among the wildflowers; take a picture of a car coming up a deserted highway from the south. Simple orders for Inspector O, until he realizes they have led him far, far off his department's turf and into a maelstrom of betrayal and death. North Korea's leaders are desperate to hunt down and eliminate anyone who knows too much about a series of decades-old kidnappings and murders---and Inspector O discovers too late he has been sent into the chaos. This is a world where nothing works as it should, where the crimes of the past haunt the present, and where even the shadows are real. A corpse in Pyongyang's main hotel---the Koryo---pulls Inspector O into a confrontation of bad choices between the devils he knows and those he doesn't want to meet. A blue button on the floor of a hotel closet, an ice blue Finnish lake, and desperate efforts by the North Korean leadership set Inspector O on a journey to the edge of a reality he almost can't survive. Like Philip Kerr's Berlin Noir trilogy and the Inspector Arkady Renko novels, A Corpse in the Koryo introduces another unfamiliar world, a perplexing universe seemingly so alien that the rules are an enigma to the reader and even, sometimes, to Inspector O. Author James Church weaves a story with beautifully spare prose and layered descriptions of a country and a people he knows by heart after decades as an intelligence officer. This is a chilling portrayal that, in the end, leaves us wondering if what at first seemed unknowable may simply be too familiar for comfort.

Designed as an undergraduate-level textbook in Chemical Engineering, this student-friendly, thoroughly class-room tested book, now in its second edition, continues to provide an in-depth analysis of chemical engineering thermodynamics. The book has been so organized that it gives comprehensive coverage of basic concepts and applications of the laws of thermodynamics in the initial chapters, while the later chapters focus at length on important areas of study falling under the realm of chemical thermodynamics. The reader is thus introduced to a thorough analysis of the fundamental laws of thermodynamics as well as their applications to practical situations. This is followed by a detailed discussion on relationships among thermodynamic properties and an exhaustive treatment on the thermodynamic properties of solutions. The role of phase equilibrium thermodynamics in design, analysis, and operation of chemical separation methods is also deftly dealt with. Finally, the chemical reaction equilibria are skillfully explained. Besides numerous illustrations, the book contains over 200 worked examples, over 400 exercise problems (all with answers) and several objective-type questions, which enable students to gain an in-depth understanding of the concepts and theory discussed. The book will also be a useful text for students pursuing courses in chemical engineering-related branches such as polymer

engineering, petroleum engineering, and safety and environmental engineering. New to This Edition • More Example Problems and Exercise Questions in each chapter • Updated section on Vapour–Liquid Equilibrium in Chapter 8 to highlight the significance of equations of state approach • GATE Questions up to 2012 with answers

In this wonderfully transporting novel, award-winning author Karen Essex turns a timeless classic inside out, spinning a haunting, erotic, and suspenseful story of eternal love and possession. From the shadowy banks of the river Thames to the wild and windswept Yorkshire coast, Dracula's eternal muse, Mina Murray, vividly recounts the intimate details of what really transpired between her and the Count—the joys and terrors of a passionate affair that has linked them through the centuries, and her rebellion against her own frightening preternatural powers. Mina's version of this gothic vampire tale is a visceral journey into Victorian England's dimly lit bedrooms, mist-filled cemeteries, and asylum chambers, revealing the dark secrets and mysteries locked within. Time falls away as she is swept into a mythical journey far beyond mortal comprehension, where she must finally make the decision she has been avoiding for almost a millennium. Bram Stoker's classic novel offered one side of the story, in which Mina had no past and bore no responsibility for the unfolding events. Now, for the first time, the truth of Mina's personal voyage, and of vampirism itself, is revealed. What this flesh and blood woman has to say is more sensual, more devious, and more enthralling than the Victorians could have expressed or perhaps even have imagined.

Written by Lorenza Mazzetti, the first woman film director ever to be funded by the BFI, *London Diaries/Free Cinema* is

the unique story of the birth of Free Cinema in London. It describes the making of *Together* (1957), a neglected masterpiece of British Free Cinema. The book introduces key figures of Free Cinema, such as Lindsey Anderson, and outlines the struggle of a young Mazzetti to find her way in London. Lorenza Mazzetti came to London in 1956 after her family were killed by the Nazis at the end of the 2nd WW. Her struggle to survive is beautifully and poetically reprised in this marvellous diary. Penniless she worked in cafes, got herself into the Slade Art School, and became the first woman to ever get a BFI grant to make a film. The book records both the traumas and the triumphs of making your way in a foreign country, and reflects on the powerful hold that history exerts on an individual, and how a new destiny can be created. Beautifully written it is a gem that has been hidden for a long time. (This is the first English publication of the book).
