

Mokal Law Notes

International insolvencies are a common feature worldwide in business and finance sectors and the scale and frequency of such occurrences have caught the attention of many academics and commentators. Following on from the 2008 book, *International Insolvency Law: Themes and Perspectives*, this book presents up-to-date accounts of themes in the field of insolvency law. It deals with reforms in and challenges to the subject in relation to its comparative and international aspect. The cutting edge contributions include chapters from common law, civil and mixed traditions and have been conceived to increase awareness of the impact of insolvency law within domestic, regional and global contexts. Useful and thought-provoking, the chapters take an innovative approach and give new interpretations to hitherto available material. This book will be invaluable for those wishing to keep abreast of developments in jurisdictions representing all legal traditions and is a useful guide to the improvement and reform of insolvency laws and frameworks.

This volume is the second part of a project which hosts an interdisciplinary discussion about the relationship among law and language, legal practice and ordinary conversation, legal philosophy and the linguistics sciences. An international group of authors, from cognitive science, philosophy of language and philosophy of law question about how legal theory and pragmatics can enrich each other. In particular, the first part is devoted to the analysis of how pragmatics can solve problems related to legal theory: What can pragmatics teach about the concept of law and its relationship with moral, and, in particular, about the eternal dispute between legal positivism and legal naturalism? What can pragmatics teach about the concept of law and/or legal disagreements? The second part is focused on legal adjudication: it aims to construct a pragmatic apparatus appropriate to legal trial and/or to test the tenure of the traditional pragmatics tools in the field. The authors face questions such as: Which interesting pragmatic features emerge from legal adjudication? What pragmatic theories are better suited to account for the practice of judgment or its particular aspects (such as the testimony or the binding force of legal precedents)? Which pragmatic and socio-linguistic problems are highlighted by this practice?

Land Law: text, cases, and materials has been designed to provide students with everything they need to approach their land law course with confidence. Ready to be used as a stand-alone resource on all land law courses the authors combine stimulating commentary and well-chosen materials to present the subject in an interesting and dynamic way. Covering all core aspects of land law including legal estates, legal interests, equitable interests, interests in the home, leases, easements, covenants and security interests in land, the book provides students with the detailed knowledge and analytical.

Who enjoys statutory preferred creditor status? What justifications exist for jurisdictions to maintain statutes that favour 'priority' creditors over other creditors and contributories? This book examines preferential debts derived from specific legislative provisions applying to corporate insolvency. In exploring the concept of preferential treatment, *Statutory Priorities in Corporate Insolvency Law* includes chapters that provide a doctrinal, theoretical and historical analysis of who enjoys preferred creditor status. As well as examining the traditional major categories of priorities, this work also identifies potential new categories for priority status such as environmental clean-up costs, international creditors, tort claimants and consumers among other non-consensual creditors. While the study focuses on Australian corporate insolvency law, where appropriate, comparisons are made with other common law jurisdictions, particularly the UK, Canada, New Zealand and the US.

Combining facts and analysis, the volume examines the laws and cases relating to matrimonial rights and obligations, marriage and divorce, constitutional claims and family courts. It is a comprehensive exploration of the state of gender justice in contemporary India from the legal

perspective.

This interdisciplinary examination of corporate insolvency law assesses recent reforms and anticipates new legislation.

This monograph seeks the optimal way to promote compatibility between systems of proprietary security rights in Europe, focusing on security rights over tangible movables and receivables. Based on comparative research, it proposes how best to tackle cross-border problems impeding trade and finance, notably uncertainty of enforceability and unexpected loss of security rights. It offers an extensive analysis of the academic literature of more recent years that has appeared in English, German, the Scandinavian languages and Finnish. The author organises the concrete means of promoting compatibility into a centralised substantive approach, a centralised conflicts-approach, a local conflicts-approach and a local substantive approach. The centralised approaches develop EU law, and the local approaches Member State laws. The substantive approaches unify or harmonise substantive law, while the conflicts approaches rely on private international law. The author proposes determining the optimal way to promote compatibility by objective-based division of labour between the four approaches. The objectives developed for that purpose are derived from the economic functions of security rights, the conditions for legal evolution and a transnational conception of justice. This book is an important contribution to the future of secured transactions law in Europe and more widely. It will be of interest to academics, policymakers and legal practitioners involved in this field.

Vanessa Finch provides a new look at corporate insolvency laws and processes, with two key questions posed throughout. Are current UK laws and procedures efficient, expert, accountable and fair? Are fundamentally different conceptions needed for the law to develop in a way that serves corporate and broader social ends? Topics considered in this fully up-to-date, interdisciplinary and wide-ranging book include different ways of financing companies, causes of corporate failure and prospects for designing rescue-friendly processes. This will appeal to academics, students at advanced undergraduate and graduate level and legal practitioners.

Minority Religions under Irish Law focuses the spotlight specifically on the legal protections afforded in Ireland to minority religions, generally, and to the Muslim community, in particular.

Commercial Law: Text, Cases, and Materials provides students with an extensive and valuable range of extracts from key cases and writings in this most dynamic field of law. The authors' expert commentary and questions enliven each topic while emphasizing the practical application of the law in its business context. Len Sealy and Richard Hooley have been joined by four renowned experts in the field for the preparation of this edition. The authors have captured the essence of this fascinating topic at a time of significant legislative, regulatory, and political change.

With partial reference to India.

Sealy and Worthington's Text, Cases, and Materials in Company Law clearly explains the fundamental structure of company law and provides a concise exploration of each different aspect of the subject. The materials are carefully selected and well supported by commentary so that the logic of the doctrinal or legal argument is unambiguously shown. Notes and questions appear periodically throughout the text to provoke ongoing analysis and debate and enable students to test their understanding of the issues as the topics unfold. This text covers a wide range of sources and provides intelligent and thought provoking commentary in a succinct format. It will be invaluable to all those looking for expert observations and vital materials on company law.

This handbook brings together the work of 25 leading human rights scholars from all over the world, covering a broad range of human rights topics.

The book is a comprehensive work on the law relating to intellectual property. It brings out point of views on point of law and as well point of facts and circumstances. It highlights judiciously the judicial, political, legal, economical and philosophical point of views on the various issues pertinent to the varied fields of intellectual property law. Besides, the book carries analysis and presentation from the comparative perspective in particular from the perspectives of USA, Europe, UK and India. The book is a good addition to the literature on Law especially on Intellectual Property Rights. The book is useful for students, academicians, and scholars from different disciplines including Law, Science, and Engineering, Humanities, Arts, Literature, Drama, Music and many other fields. The book is also useful for people working in the corporate world. Besides the book is very informative and knowledge generator to the readers.

Unternehmensanleihen sind Fluch und Segen zugleich. Für solvente Schuldner eröffnet sich die Chance, eine Vielzahl potentieller Investoren mit einem leicht handelbaren und flexiblen Investitionsangebot anzusprechen. In einer finanziell prekären Situation bereiten Informations-, Koordinations- und Kooperationsprobleme einen fruchtbaren Nährboden für opportunistische Strategien. Der Vergleich von Restrukturierungs- und Insolvenzverfahren zu privaten und vertraglichen Institutionen zeigt auf, wie sich Mehrwerte insbesondere in den vor- und außerinsolvenzlichen privaten Verfahren schaffen lassen. Dazu werden Restrukturierungs-, Insolvenzverfahren, Anleihebedingungen, Institutionen der Gläubigerorganisation, Einschränkungen der freien Vertragsgestaltung (wie etwa das Abstimmungsverbot in den USA) genauso kritisch diskutiert wie mögliche Umgehungsstrategien. Der Fokus liegt auf dem US-amerikanischen und englischem Recht, ergänzt durch eine kurze Analyse des deutschen Rechts.

This is a comprehensive look at the challenges legislators face in regulating related party transactions in a socially beneficial way.

One of the world's premiere cancer researchers reveals an urgent philosophy on the little-known principles that govern medicine--and how understanding these principles can empower everyone.

A. Scott Fenney is a hotshot corporate lawyer at a big Dallas firm. At 33, in the prime of his life, he rakes in \$750,000 a year, drives a Ferrari and comes home every night to a mansion in Dallas's most exclusive neighbourhood. He also comes home to one of Dallas's most beautiful women, with whom he has a much-loved daughter, Boo. For Fenney, life could not be better. But when a senator's son is killed in a hit-and-run, Fenney is asked by the state judge to put his air-conditioned lifestyle on hold to defend the accused: a black, heroin-addicted prostitute - a very different client to the people Fenney usually represents. And, more importantly, she is not going to be paying Ford Stevens \$350 an hour for the privilege of his services. Under fire from all sides, Fenney drafts in a public defender to take the case on. Yet as Scott prepares to hand over to

Bobby, he feels increasingly guilty about the path he is taking, because Scott still believes in the principle of justice. The question is: does he believe in it strongly enough to jeopardise everything in his life he holds dear? And to what lengths is the dead man's power-hungry father prepared to go to test Fenney's resolve?

The third edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law. It has been fully updated to reflect developments in the law and the markets. One of the book's distinctive features is its equal coverage of both the equity and debt sides of corporate finance law, and it seeks, where possible, to compare and contrast the two. This book covers a broad range of topics regarding the debt and equity-raising choices of companies of all sizes, from SMEs to the largest publicly traded enterprises, and the mechanisms by which those providing capital are protected. Each chapter provides a critical analysis of the present law to enable the reader to understand the difficulties, risks and tensions in this area, and the attempts by the legislature, regulators and the courts, as well as the parties involved, to deal with them. The book will be of interest to practitioners, academics and students engaged in the practice and study of corporate finance law. International insolvency is a newly-established branch of the study of insolvency that owes much to the phenomenon of cross-border incorporations and the conduct of business in more than one jurisdiction. It is largely the offspring of globalization and involves looking at both law and economic rules. This book is a compendium of essays by eminent academics and practitioners in the field who trace the development of the subject, give an account of the influences of economics, legal history and private international law, and chart its relationship with finance and security issues as well as the importance of business rescue as a phenomenon. Furthermore, the essays examine how international instruments introduced in recent years function as well as how the subject itself is continually being innovated by being confronted by the challenges of other areas of law with which it becomes entangled.

What is strategic HRM, and how do you apply it in business? What makes good HR strategy and how do you develop it? What are the key issues that need to be considered when creating, developing, and embedding a strategic approach to managing people? These are the fundamental questions asked by HR professionals and tackled in this innovative and comprehensive textbook. Drawing on the latest academic research, the well-respected author team take a reliably thematic approach to SHRM. Broken into four distinct parts, the book addresses the context, theories, themes, and future of managing people strategically. Tata Motors, Samsung, Pizza Express, and Deliveroo makeup some of the case studies and examples that feature across the book, ensuring that theoretical discussion is always linked to practical application. New "Strategic HRM in Action" boxes take this one step further by presenting students with a scenario in which they themselves can make strategic decisions and reflect on their own evaluation of real-life business practices. Critical thinking is essential in SHRM, so frequent Critical Reflection boxes, Review Questions, and questions or activities to accompany every case study ensure students are challenged to engage with the subject critically and reflectively, and consider their own evaluations of the essential theories and the strategic practices adopted by different organizations. Global case studies and an opening chapter dedicated to the global context of SHRM challenge the dominant Western perspective

and provide a rounded and adaptable view of SHRM. A user-friendly structure and wide range of learning features, including learning objectives, key concept boxes, and summaries, ensure the text remains accessible, even for those completely new to SHRM, allowing all students to benefit from the book's ideal balance between the latest academic theory and contemporary, real-world practice. The book is accompanied by a selection of online resources: For students: * Glossary * Web links For registered lecturers: * Additional case studies * PowerPoint slides * Seminar activities * Suggested case study answers * Figures from the book

Originally written in Marathi, 'Ayurveda Garbha Sanskar' is a book that serves as a guide to a couple who are looking to start a family, starting out by getting pregnant, giving birth to a healthy child and nurturing the little one. The book comprehensively provides people everything that a person wants to know about conceiving, pregnancy and delivery to nurturing the little one for up to 2 years of age. Not simply a book laden with known-lectures, rather this book can be seen as an elaboration of various ancient Ayurvedic practices that leads to the complete well-being of the mother and child's physical, spiritual and psychological health. It also advises on the traditional herb mixes, yoga, music and mantras that the new-mothers or the mothers-to-be may find helpful. Besides, this book also charts a nutritious Ayurvedic diet-plan for the couples to detoxify their bodies and be healthy in the right sense of the term. Once a mother conceives, she must be able to nourish and condition the little one in her womb. Likewise, this book also provides a month-by-month nutrition plan that helps in proper nourishment of the baby. Yoga and full-body herbal oil massages during pregnancy are also recommended for the mothers-to-be along with a list of health tonics prescribed in this book. In order to reach out to more people worldwide, this book has been translated in English, and is available in hardcover.

Comparative Insolvency Law argues that the most important development in contemporary insolvency law and practice is the shift towards a rescue culture rather than full creditor satisfaction. This book is the first to specifically examine the rise of the pre-pack approach, which permits debtor companies to formulate a clear pre-arranged exit before entering into formal insolvency proceedings.
