of the nation's courtrooms fuel everything from the novels of John Grisham and Scott Turow to television shows like *The Practice*, *Ally McBeal*, and *L.A. Law*. Now in *Shark Tales* comes a remarkable collection of witty, eccentric, and astounding war stories -- guaranteed to be mostly true -- supplied by hundreds of attorneys and displaying the nitty-gritty of life in court. To create *Shark Tales*, famed Washington lawyer Ron Liebman solicited stories from hundreds of colleagues in America and Britain...and not just any stories. He asked them to supply humor, of course, but also to describe the day on which they were proudest to be lawyers, and the day when they were most ashamed. He asked for stories of wild divorces and tragic losses. He asked them to describe the worst judges and best witnesses they'd ever encountered. He reviewed actual court transcripts, and found material like the following: QUESTION: Doctor, how many autopsies have you performed on dead people? ANSWER: All my autopsies have been on dead people. Here is the tale of a case settled not by a fingerprint left behind at the scene of the crime, but an entire finger. Here is a lawyer agreeing to defend a client accused of passing bad checks...a client who promptly bounced the retainer check. Here you'll meet a proud son, having won his first case, telling his father -- also a lawyer -- that "justice has triumphed," to which the father replied, "Appeal at once." And here is a senior partner in a

A British comedian, drunk on a gallon of wine, takes a one-pound bet to jump, completely naked, into an aquarium filled with sharks and stingrays, causing one of them to die of stress. An American man goes on such an astonishing bender he believes his girlfriend's claim that they got married while under the influence and only becomes suspicious when she is unable to produce a marriage certificate during the following seven years. Russian troops get so wasted that it seems like a good idea to make a little extra cash by selling off their tank ... to Chechen rebels. The true stories in The Man Who Scared a Shark to Death, taken from news reports around the world, serve as both cautionary tales (don't agree to help outwith a stranger's robbery, even if he seems like a really nice guy) and comforting perspective (at least you've never woken up in a trash compactor). However cringe-making your own most embarrassing drunken moment might be, at least you're not the man who caught his privates in a mousetrap--twice.

populations largely intact, but during the 20th Century a new breed of hunter joined the fray, some driven as much by a need for adventure as for financial gain. With improved equipment and experience, they exploited the shark on an industrial scale that drastically reduced numbers, leading to localised near-extinction in some areas. From the 1970's onward a new generation took to the seas, this time with conservation in mind to identify where the shark might still be found in the waters around the British Isles, employing new technologies to solve long-standing mysteries about the behaviour of this elusive creature. Using the best of both old and new research techniques, the case was built to justify the species becoming one of the most protected sharks in the oceans. Today, the Basking Shark is a much-loved cornerstone of our natural heritage. There are positive signs that the population has stabilised and may even be slowly recovering from the damage of the past, proving that timely conservation measures can be effective. Join us on a journey amidst wild seas, places, people and conservation history in the battle to protect this iconic creature – a true sea monster's tale.
