It is easy to be overwhelmed by the sheer volume of business books flooding the market today. Even more daunting is the task of weeding through them to find the "golden nugget" of wisdom inside. In *Aesop and the CEO*, David Noonan has simplified the process by providing this well-researched primer of the most essential advice from the greatest business books ever written. Further, in a clever melding of modern business sense and ancient wisdom, he has used the animal-based stories of Aesop as springboards to launch these 50 lessons. Both entertaining and informative, *Aesop and the CEO* includes advice from well-known leaders such as Bill Gates, Sam Walton, Donald Trump, and Lee Iacocca. The short, easy-to-read vignettes cover every aspect of corporate life: negotiations, hiring and firing, mergers and acquisitions, marketing and sales, and day-to-day management.

You are changing jobs. Maybe you are doing this on your own, voluntarily. All too often people change jobs involuntarily. When a job change is forced on us, we often ask ourselves, "Why me?" I cannot answer this question for you. I can tell you that often it is not about you. I can also tell you why I wrote this book; because I have made many job changes, some voluntary, others not. In spite of those, I have consistently landed on my feet.

About the Author Carl Schott has successfully navigated three career changes over the past 30 years. His essential vision? Career moves are often possible and even advisable if the new career requires the same GENIUS (according to Webster "the peculiar structure of mind with which an individual is endowed . . .") that brought success in prior endeavors. Driven at an early age to intellectual pursuits, Carl obtained his Ph.D. degree from the University of Notre Dame. During the Vietnam War era he served as an Army Officer, ultimately becoming a Strategic Intelligence Analyst in the Office of the Chief of Staff for Intelligence at the Pentagon. Captivated by his first experience of leadership and management in the military, he entered the business world in New York City and had a successful career in merchandising and management with Bloomingdale's, Lord & Taylor, and Mitchells. As Store Manager of the prestigious Mitchells of Westport CT, and as Operating Vice-President and Managing Director within the Lord & Taylor system, Carl developed skills that later propelled his pharmaceutical sales and management career. In 1992, after evaluating the costs to their family of continued big city life, Carl and his wife Ilona moved to Pennsylvania in a classic "Green Acres" migration and entered the pharmaceutical industry. Within three years, he became G.D. Searle's National "Rep of the Year" and moved back into Management as a District Sales Manager. Following the merger of Searle with the Pharmacia & Upjohn Company, Carl helped pioneer the position of Regional Staffing Manager. He was responsible for the recruitment, screening and placement of candidates in sales and management positions covering a seven state area and the District of Columbia. In his staffing assignment, he interviewed more than 3000 candidates. Of these, 175 were hired by his company and more than 98% of them were still successful in the field two years later when his company was acquired by Pfizer. Carl then joined Inventivhealth in that company's premier pharmaceutical recruiting organization and in just four years, placed 700 candidates in Florida and Puerto Rico alone. Many of them

How one is perceived impacts her ability to be successful. And success in corporate America is the goal. If Cubicles Could Talk Conversation for the Female New Hire in Corporate America helps the corporate professional avoid the office "clatter chatter" that goes a little like this: "Can you believe she's actually wearing that outfit to work?!" "Could she have been more drunk at the boss's party?" "Somebody needs to say something to her about her body odor." "I can't believe she was polishing her nails at her desk!" "What's up with her always on the phone with her boyfriend?" "Why does she have such an attitude?" "Why does she act so helpless? Doesn't she get it?" Most corporate professionals have heard, made, thought or heard other people think at least one of those comments about someone in the office. Or worse, some corporate professionals believe one of those comments could have been made, heard, or thought about them! The point: perception is reality. The way a corporate professional behaves at work determines how she is perceived and her perception impacts her success. And so knowing how to act in corporate America is key to creating the perceptions needed for success. Cubicles offers relevant advice about how to behave at work, professionally, personally, mentally, and emotionally so that success is realized. The book is a complete resource for what it takes to win, and offers information needed to remove the frustration and "maze-ment" out of that thing called "work." Cubicles is for the reader who wants to:

- Strengthen her mind for the workplace
- Settle her wardrobe for the workplace
- Gain a solid foundation with the boss
- Manage her job description and her privileges
- Plan and build professional relationships
- Own her performance and manage her progress
- Mind her social manners
- Maintain her competitive edge at work
- Plan her professional future.

The tone is frank and honest it "tells it like it is." Yet, Cubicles gives clear instruction regarding appropriate behaviors, dress, emails, voicemails, and overall business etiquette. In ten parts Cubicles maps out what to do to be perceived as timely, professional, serious, competent, loyal, trusted, ethical, composed, mature, a hard worker, a team player, and a real asset. Cubicles also advises the corporate professional on ways to avoid being perceived as late, inconsistent, immature, unprofessional, and a liability to the company. Additionally, it points out what things she could be doing to reinforce negative perceptions. For concepts that require more details and examples, Appendices are used for reference. The Appendix also includes a recommended book list and a listing of helpful Internet sites. If you are:

- Graduating college and entering a professional job
- Currently a new hire within her first 12 to 24 months at work
- An intern seeking permanent employment
- On the job but who suspects her perception is holding her back
- Already working, but feeling like she needs an edge
- Preparing to enter the workplace for the first time or again!

Or if you are a(n) Parent Relative Friend Career or Guidance Counselor Job Placement Specialist Recruiter New-hire Trainer Mentor Advisor Manager Human Resources Representative ...and you know a female who is in the one of the above categories, then Cubicles is just the book to invest in!

Simplified Chinese edition of Rework. Seth Godin, author of the international bestselling marketing Purple Cow that changed the way marketing is performed, says: "Stop reading the review. Buy the book." This small book is filled with common sense - yes, you know them, but the book tells you how to put them into practice. In Simplified Chinese. Distributed by Tsai Fong Books, Inc.

Using thought-provoking metaphors, this book takes an innovative look at leadership models and behaviors to help administrators reflect upon their roles and revitalize their leadership behaviors.

What can the film Hoosiers teach us about the meaning of life? How can ancient Eastern wisdom traditions, such as Taoism and Zen Buddhism, improve our jump-shots? What can the "Zen Master" (Phil Jackson) and the "Big Aristotle" (Shaquille O'Neal) teach us about sustained excellence and success? Is women's basketball "better" basketball? How, ethically, should one deal with a strategic cheater in pickup basketball? With NBA and NCAA team rosters constantly changing, what does it mean to play for the "same team"? What can coaching legends Dean Smith, Rick Pitino, Pat Summitt, and Mike Krzyzewski teach us about character, achievement, and competition? What makes basketball such a beautiful game to watch and play? Basketball is now the most popular team sport in the United States; each year, more than 50 million Americans attend college and pro basketball games. When Dr. James Naismith, the inventor of basketball, first nailed two peach baskets at the opposite ends of a Springfield, Massachusetts, gym in 1891, he had little idea of how thoroughly the game would shape American—and international—culture. Hoops superstars such as Michael Jordan, LeBron James, and Yao Ming are now instantly recognized celebrities all across the planet. So what can a group of philosophers add to the understanding of basketball? It is a relatively simple game, but as Kant and Dennis Rodman liked to say, appearances can be deceiving. Coach Phil Jackson actively uses philosophy to improve player performance and to motivate and inspire his team and his fellow coaches, both on and off the court. Jackson has integrated philosophy into his coaching and his personal life so thoroughly that it is often difficult to distinguish his role as a basketball coach from his role as a philosophical guide and mentor to his players. In Basketball and Philosophy, a Dream Team of twenty-six basketball fans, most of whom also happen to be philosophers, proves that basketball is the thinking person's sport. They look at what happens when the Tao meets the hardwood as they explore the teamwork, patience, selflessness, and balanced and harmonious action that make up the art of playing basketball.

Cutthroat is the name of the game on the electronic frontier. It requires an amoral flexibility with no allies, just alliances; no team loyalties, just self-interest. Strategy forms and dissolves with every play; a smile on the face may mean a knife in the back. In the next round, the players switch sides and do it again. Billions of dollars are at stake. Featuring a bitter struggle between Rupert Murdoch and John Malone, and a supporting cast that includes AJ Gore, Ted Turner, and Bill Gates, author Stephen Keating uses one particular mega-deal that went terribly wrong to reveal how these corporate titans flex market power, crush competition and reap the profits. In 1997, Murdoch's News Corp. joined forces with EchoStar, Charlie Ergen's upstart company, to create a satellite-TV powerhouse -- nicknamed Deathstar. They planned to bunch a cosmic armada of seven satellites that would deliver several hundred TV channels, internet, and retail services to millions of subscribers. How this deal challenged the entrenched cable-TV monopoly before it came crashing down to earth exposes the influence exerted by and through money, power, and political dynamics among the corporate players fighting to rule the communications world. The roots of this dramatic business conflict are revealed through the separate evolution -- and eventual collision -- of cable and satellite TV technologies. Cutthroat is the perfect book for anyone who enjoyed Barbarians at the Gate and Den of Thieves.
