Catherine McIntyre, like many fine artists, created traditional art for decades before encountering the versatility of digital imaging technology. Free of her Rotring pens and scalpel, she now uses Photoshop to create her montages. Visual Alchemy explores McIntyre's sources of inspiration as well as her methods, offering an aesthetic guide to composition, color, texture and all of the other means of communication that artists have at their disposal. While these concepts and techniques make use of Photoshop, they will apply to any digital imaging program and indeed to any medium, whether traditional or digital. Featuring McIntyre's own art as well as that of artists around the globe, Visual Alchemy is an invitation to discover the artistic possibilities of picture making through digital montage.

Art is always ambiguous. When it involves the female body it can also be erotic. Erotic Ambiguities is a study of how contemporary women artists have reconceptualised the figure of the female nude. Helen McDonald shows how, over the

past thirty years, artists have employed the idea of ambiguity to dismantle the exclusive, classical ideal enshrined in the figure of the nude, and how they have broadened the scope of the ideal to include differences of race, ethnicity, sexuality and disability as well as gender. McDonald discusses the work of a wide range of women artists, including Barbara Kruger, Judy Chicago, Mary Duffy, Zoe Leonard, Tracey Moffatt, Pat Brassington and Sally Smart. She traces the shift in feminist art practices from the early challenge to patriarchal representations of the female nude to contemporary, 'postfeminist' practices, influenced by theories of performativity, queer theory and postcoloniality. McDonald argues that feminist efforts to develop a more positive representation of the female body need to be reconsidered, in the face of the resistant ambiguities and hybrid complexities of visual art in the late 1990s.
